

## Application for a Whitstable Improvement Trust Grant

The WIT has experience of running projects and can advise on how to present your ideas and the issues that may be encountered. The WIT Board may also endorse a project as meeting its criteria which may help you seek funding elsewhere. Please note that the WIT has limited funds to support projects and shared funding is preferred. This form may help you organise your ideas.

Projects must demonstrate how they meet one or more of these criteria:

- Improve the environment for the benefit of the local residents and visiting public as a whole.
- Educate the public, particularly children, about Whitstable's heritage and the importance of protecting the local environment.
- Work in partnership with other organisations for the benefit of the Whitstable community.

Project Title:
